

GenCyber

BOOT CAMP

FOR HIGH & MIDDLE SCHOOL STUDENTS

DATES

HIGH SCHOOL CAMP June 20-24 | **MIDDLE SCHOOL CAMP** July 25-29

The University of Memphis is excited to host the 2016 GenCyber Boot Camp for middle and high school students. The camp will cover cyber security first principles of various aspects of cyber hygiene and students will learn about privacy, security and safe browsing on the internet. They will also be introduced to cyber ethics and participate in hands-on sessions that are educational, fun and challenging. There will be opportunities to meet cyber experts and industry professionals.

The week will culminate in activities where students will demonstrate online activities following best practices. Students will also learn about cyber programs at the University of Memphis, a nationally-designated Center for Academic Excellence in Information Assurance.

This day camp is funded in part by the National Security Agency through their GenCyber program. There is no cost for attending the camp, but space is limited. For more information, call 901.678.5440 or email cfia@memphis.edu.
