

First Class A FAA Aviation Medical Certificate

1. To start the application process for obtaining a First Class A FAA Aviation Medical Certificate, go to https://www.faa.gov/licenses_certificates/medical_certification/get/
2. Click on MedXPress link in the center of the site.

[FAA Home](#) ▶ [Licenses & Certificates](#) ▶ [Medical Certification](#)

Medical Certification - Get a Medical Certificate

To obtain a medical certificate you must be examined by an FAA-designated Aviation Medical Examiner (AME). As the airman you should follow these steps to apply for and obtain your medical certificate:

- Use **MedXPress** to complete the initial portion of the application.
- Schedule an appointment with the [AME of your choosing](#).

At your scheduled appointment, the AME will complete your medical examination and the remainder of the FAA application form. If you meet the required medical standards, the AME will issue you a medical certificate.

3. At the start of the application, disregard "Application For". You do not need to make a choice for that part. Under the heading for Class of Medical Certificate Applied for, be sure to choose "1st".

General

Exam Type: Pilot (non FAA) - Airman, Non-FAA Air Traffic Controller, etc.

1 Application For

☐ Airman Medical Certificate ☒ Airman Medical & Student Pilot Certificate
