How did you hear about the program?
What other programs are you applying for?
Research Interest:
Indicate your preference for research participation in order of priority:
[1]
[2]
[3]
(e.g. physics, chemistry, math, computer sciences, psychology, biology, etc)
What area of research are you particularly interested in within that category?
Whenever possible, students are matched to professors who are working in an area in which the student has expressed interest. Certain professors require background course work which the applicant must have completed. Please note that placement in a preferred research area cannot be guaranteed.
Please briefly describe any previous research experience you have had:
Do you have any objection to working with invertebrate and/or vertebrate animals in your laboratory assignment? Yes No (If yes, write a statement defining your objection and attach to submitted application paperwork.)

Have you or a relative ever applied for the CRESH program before? Yes | No (If yes, write a statement specifying when and whether you/ your relative were/ was accepted and if so, note the previous project details.)

Do you have a medical condition that will need an accommodation to aid you in the completion of your assignments? Yes | No (If yes, write a statement defining your needs.)

List computer languages (eg C++) or programs (eg SAS, HTML, JAVA, MatLab) you know:

I understand that placement in a research area is dependent on availability, and on academic criteria set by the mentor. I agree to participate fully in the research area in which I am placed and follow instructions and guidelines presented to me at the beginning of the program.
