

Your ScanPro 3000 uses graphic buttons with customizable text and tool tips to provide a tool bar with controls that make working with microfilm easy, efficient and fun. These button controls are arranged under tabs to keep the number of buttons to an absolute minimum while still providing access to all of the powerful features available on your ScanPro 3000. The tool bar is customizable by the administrator. This guide is meant to get you started, for more information, "mouse over" a button or CLICK the Help button plus any button on the tool bar.
