# Senior Personnel Features: Products

A list of publications:

- Up to 5 products most closely related to the proposed project
- Up to 5 other significant products whether or not related to the proposed products

“Acceptable products must be citable and accessible including but not limited to publications, data sets, software, patents, and copyrights. Unacceptable products are unpublished documents not yet submitted for publication, invited lectures, and additional lists of products. **Only the list of ten will be used in the review of the proposal.**”

# Senior Personnel Features: Synergistic Activities

A list of up to five distinct examples that demonstrate the **broader impact** of the individual's professional and scholarly activities that focuses on the integration and transfer of knowledge as well as its creation.

“Examples should be specific and could include, among others:

- innovations in teaching and training (e.g., development of curricular materials and pedagogical methods);
- contributions to the science of learning; development and/or refinement of research tools; computation methodologies and algorithms for problem-solving;
- development of databases to support research and education;
- broadening the participation of groups underrepresented in STEM;
- service to the scientific and engineering community outside of the individual's immediate organization.

**Examples with multiple components are not permitted.**

# Senior Personnel Features: Other Personnel

For the personnel categories listed below, the proposal also may include information on **exceptional qualifications that merit consideration** in the evaluation of the proposal. Such information should be clearly identified as “Other Personnel” biographical information and uploaded as a single PDF file in the Other Supplementary Documents section of the proposal.

- (a) Postdoctoral associates
- (b) Other professionals
- (c) Students (research assistants)
